---

### PROFESSIONAL SUMMARY

A motivated and detailed-oriented entry-level possessing a strong grasp of web development principle and best practices. Recently completed a comprehensive Full Stack Web Development course, gaining practical skills in building responsive websites and dynamic web applications. Proficient in frontend technologies like HTML, CSS, JavaScript, and backend frameworks such as Node.js and Express.js, along with database integration using MongoDB. Capable of developing user-friendly interfaces, managing RESTful APIs, and implementing secure authentication features. Committed to writing clean, efficient code and continuously improving through learning and real-world projects.

---

### CORE SKILLS

- **Programming Languages** - Python
- **Frontend Technologies** - HTML , CSS , JavaScript
- **Backend Technologies** - Node.js , Express.js , SQL , MYSQL
- **Frameworks** - Bootstrap , React.js
- **Version Controls** - Git , GitHub
- **Soft Skills** - Problem Solving , Adaptability , Continuous Learning

---

### PROJECTS

- **Responsive Portfolio Website**

A responsive portfolio website is a personal or professional site designed to showcase an individual's work, skills, and achievements. Key elements of a responsive portfolio site include a clean layout, interactive navigation and sections like "About Me," "Projects," "Skills," and "Contact."

**Technologies Employed:** HTML , CSS , JavaScript

- **Netflix-Clone & Spotify-Clone**

I created a Netflix clone to replicate the look and feel of the popular streaming platform. The project includes a fully responsive layout with a featured banner section, movie thumbnails arranged in rows, hover effects, and interactive elements like a navigation bar and play buttons.

**Technologies Employed:** HTML , CSS , JavaScript

- **Wanderlust**[<https://wanderlust-4-zmxo.onrender.com/listings>]

- Built a full-Stack travel website with CRUD functionality.
- Implemented user authentication: Signup , login , logout.
- Created RESTful APIs using Express and Node.js for backend logic.
- Designed a responsive frontend using HTML ,CSS and vanilla JavaScript
